

# AGENDA

## A landscape conservation design for the Lower Columbia River and coastal Washington/Oregon

February 29, 2016: 10am – 3pm, 911 NE 11<sup>th</sup> Avenue, Portland, Oregon, 3<sup>rd</sup> Floor Conference Room

### LCD Core Team Meeting

#### Meeting goals:

- Develop a shared understanding of how stakeholders would use the outcomes from the LCD – what attributes are most important, scale, timeframe, resolution. What sort of decisions would the LCD likely inform now, and in the future?
- Develop a recommendation on the geographic scope of the initiative.
- Make recommendations on any further refinements on the vision and goal statements for the LCD.
- Affirm the elements of the current project plan draft and begin adding details – scoping language that describes how assessment work would be pursued; main analytical data and information needs; coarse substance of the implementation; key pieces of the project plan – any missing elements?
- Walk core team members through the new LCD website.

---

10:00am – 10:05am	Welcome, Introductions, and Agenda Review
10:05am – 10:45am	<b>How stakeholders envision using the outputs from the LCD – INCLUDE WEBINAR PARTICIPANTS IN DISCUSSION</b> <ul style="list-style-type: none"><li>▪ Define attributes of importance – scale, timeframe, resolution</li><li>▪ Discuss the types of decisions that the LCD could inform, in the near term and longer term</li></ul>
10:45am – 11:00am	<b>LCD Vision and Goal Statements</b> <ul style="list-style-type: none"><li>▪ Core team members will discuss the draft vision and goal statements and provide any suggested edits/amendments</li></ul>
11:00am – 12:00pm	<b>Geographic Scope of the LCD</b> <ul style="list-style-type: none"><li>▪ Core team members will review the proposed alternatives for the geographic scope of the LCD and make a recommendation on the geographic scope</li></ul>
12:00pm – 1:00pm	LUNCH (on your own)
1:10pm – 2:45pm	<b>The Project Plan – BREAKOUT SESSIONS</b> <ul style="list-style-type: none"><li>▪ Core team members will review elements of the DRAFT project plan outline, determine if any key elements are missing, and begin adding details and scoping language as well as implementation steps that would be needed</li></ul>
