

AGENDA

PNW Conservation Blueprint Meeting

A landscape conservation design for the Lower Columbia River and coastal Washington/Oregon
August 29, 9am–Noon, Washington Department of Fish and Wildlife, Room 172, 1111 Washington St SE, Olympia, WA

Our conference room has guest wi-fi. There are no restrictions on food in the conference room, however, if you bring coffee or drinks, please bring cups with lids.

Meeting goals:

- Discuss conservation priorities within the geographic scope of the project, giving meeting attendees an opportunity to discuss their priorities in the context of the landscape-scale initiative.
- Discuss the key indicators, ecological attributes, and threats that could inform the future conditions of targets (meeting attendees will select which targets they wish to focus on in advance of the workshop—coastal forests, rivers, estuaries, beaches or shore systems, nearshore systems, and wetlands).
- Discuss ways attendees can work together collaboratively to identify intermediate and long-term actions and outcomes to address key threats to selected targets.
- Share how the outcomes of the meeting will be used to develop version 1.0 of the PNW Conservation Blueprint, a rapid synthesis of current condition of our conservation targets using readily available data, a rapid overlay of mappable threats, and a synthesis of identified priority areas.

9:00am – 9:05am

Welcome, Introductions, and Agenda Review

9:05am – 9:20am

The Pacific Northwest Coast LCD – The Project Framework

Describe the core elements of the landscape conservation design and the role individual organizations play in determining both implementation and outcomes; describe how the LCD will incorporate conservation priorities into a spatial database that prioritizes core areas to inform alternative scenarios, identifies levels of threats to conservation priority areas, and enhances connectivity across the landscape.

9:20am – 10:00am

Conservation Priorities

Meeting attendees have an opportunity to discuss their priorities in the context of priorities that have been mapped to date.

10:00am – 11:00am

[Key Indicators, Ecological Attributes, and Stressors](#)

Meeting attendees will discuss key indicators, key ecological attributes that could inform the future conditions of targets (workshop attendees will select which targets they wish to focus on in advance of the workshop—coastal forests, rivers, estuaries, beaches or shore systems, nearshore systems, and wetlands).

11:00am – 11:45am

Intermediate and Long-Term Actions and Outcomes

Meeting attendees will discuss ways they could work together collaboratively to identify intermediate and long-term enhancement, protection, and restoration actions and outcomes to address key threats to selected targets.

11:45am – NOON
